Organizational history of DeKalb Parks and Recreation: A bond program in 1952 started the ball rolling to set up the department, and the official inaugural date is 1955. In its first ten years, the department primarily set up picnic areas, baseball fields and pools. In 1962 more money came in and construction of recreational facilities began and staff was hired. Soon after, community programs were begun. The department is today called Recreation, Parks and Cultural Affairs.

The park system includes: 130 parks consisting of approximately 6,000 acres of parkland and open space, 151 playgrounds, 2 golf courses, 105 tennis courts, 90 pavilions, 158 ball fields, 13 recreational facilities, and even more.

This part of the Espy collection is documents from the DeKalb County Parks and Recreation department and includes information on local parks, summer activity programs, applications for Land Water Conservation Fund money, scrapbook, financial information about repairs and expansions of parks and services and bids for Olympic tennis stadium venues.
