On April 28, 1985 Steve and Robin Snider, along with their two children, founded Family Life Assembly of God. They began their service meeting in an old house on the property with three other people. Within the first couple of months two of the three other people had left. Undaunted by this, the Snider pressed on. After about one year the congregation grew to about 40 people. By 1987 they build the first sanctuary and within another year or so grew to 100 people. In 1991 they built the Christian Education facility and had to move into their gym. Today, twelve years later, Family Life continues to grow and expand. Family Life is a congregation with a constituency of about 400 people and is committed to evangelism, discipleship and worship. Their hearts desire is to rescue people that are perishing.
