Mr. Rudolph Hering, the consulting engineer of the department of public works in New York. It will require three or four million dollars to complete the system and the work will be continued through a number of years."

THE WATER WORKS.

The most important work ahead of this council is in providing for a system of water works. There has been some correspondence on the subject with expert engineers but not a definite conclusion has been reached. As soon as we select an engineer of experience and ability we will have him make the necessary preliminary surveys and locate the source of supply. When this is done I believe the council will at once make the necessary arrangements to commence the work. In my opinion it is a necessity to have these works. We must get into condition to furnish water to manufacturers at low prices before we can induce many of them to locate their plants here.

"I have heard of efforts being made to induce factories which were being organized by the subscriptions of our people to locate their plants on the river, the argument being that

GEORGE WRIGHT DEAD.

A Well Known Policeman Passes Away—He Was a Brave Man.

George Wright is dead.

This will be sad news to numbers of people in Atlanta, although the death was not a sudden or unexpected one. He died yesterday afternoon at the house of his father, Colonel Wright, eight miles from Atlanta, in DeKalb county.

George Wright was for a long while patrolman on the Atlanta police force, and as brave a man as there ever was on it. Three years ago he was cut up by a negro in a general fight and since that time has been in feeble health. At the last election by the board of police commissioners he was left off by the board because he was unable to do patrol duty, but at the recommendation of the board the council passed a resolution by which Mr. Wright has been placed on a sort of retired list, all by himself, at a salary of \$40 per month.

He was the first driver that the Black Maria ever had.

His body will be interred in the family burying ground at 3 o'clock this afternoon.

**Death of Colonel Wright.**

Yesterday morning at nine o'clock Colonel George Wright, father of Captain James M. Wright and Patrolman William Wright, of the Atlanta police force, died at his home, eight miles from the city, and near Decatur.

Colonel Wright was seventy-seven years of age, and died of pneumonia. He was a veteran of the war, and went into the confederate army as a captain. He arose to the rank of colonel of the 38th Georgia regiment, and was a brave soldier and efficient officer.

The funeral will occur at the residence this afternoon, and the remains will be byried with Masonic rites.

Only a short time ago a son of Colonel Wright died at the residence of his father, and the family have the sympathies of many friends in their second bereavement.

Hon GW Randolph  
Sec'y of War  
Sir:

I have the honor to herewith  
enclose my resignation of the position of Captain in  
the PACS. It is not from a disposition to forsake  
my country in this her hour of need and  
peril, but from hard service during an  
active campaign for twelve months I find  
my health has become impaired to such  
an extent as to render me almost valueless  
to myself and family as well as my country

Old injuries received years ago have  
taken on new disease until now I find  
myself almost I fear a permanent cripple.

I am 50 years old and of unsound  
constitution and believe that I would live  
but a few months in another active campaign.  
I herewith submit a surgeon certificate  
and hope it may please your honor to  
accept at an early date my resignation

I have the honor to be
