CIVIC ASSOCIATION OF TONEY VALLEY PRESIDENT...Leila Marcus.

Neighborhood characteristics can exert a profound influence on rates of crime, violence and juvenile delinquency (Sampson 1985).

Several studies suggest that rates of crime and violence are directly related to levels of poverty, unemployment, and social disorganization in the neighborhood.

Graffiti, vandalism, public drinking and prostitution signal a loss of neighborhood control that may result in an increase in crime (Skogan 1991).

Criminals assume that neighbors who are indifferent to their surroundings will be unlikely to confront strangers, intervene in a crime or call the police.

Unsafe neighborhoods are characterized by anonymity, weak control of public space, limited participation in local organizations, and groups of unsupervised youth (Sampson 1985)

*****Remember the Civic Association of Toney Valley meets the FIRST Tuesday of every month when school is in session. 7:00pm at Toney Elementary school.

*****Convicted Sex offenders in the Toney Valley Neighborhood, for photos and further details click on the neighborhood watch link to the left.
