Government – Elections
Government – Events
Government – General Assembly
Government – Organizations

The photos in boxes 15-19 were originally housed in drugstore or camera store bags and later put into protective sleeves and folders. Original label information was retained on the new folders. In many cases, multiple events were housed in the same bag (with negatives) and therefore kept together when moved to folders. While some of the bags contained photo information and dates, others had little or no information. In some cases, the year had a question mark next to it. We've retained that in the folder description.

We've used "no label" to indicate those photographs that had no information and, for the sake of cataloging, we've created subject labels on those folders.

Box 15
